Experience

powex GmbH

Jan 2024 – Dec 2025

Fullstack Developer · Remote

- Developed a multi-channel customer communication system for feelMemorial, unifying WhatsApp, live support, SMS and email into a single inbox.
- Built a provider-agnostic structure (e.g. email via SendGrid, Resend, or custom SMTP without code changes); developed internal panels for document collection and offer management.
- Worked on the frontend with Next.js and Tailwind backend with Go (Gin), Redis, Postgres and RabbitMQ, with Jenkins for CI/CD.

Freelancer

Jan 2023 – Jan 2024

FullstackDeveloper · Remote

- Built Telegram web apps during the web3 trend, using Next.js and Tailwind CSS on the frontend and Express.js (REST API & WebSockets) on the backend, often focused on referral-based systems.
- Deployed apps via Vercel/Netlify and managed backend services on Ubuntu servers using PM2.
- Also delivered fast marketing/website projects using Next.js and Tailwind CSS.

Projects

Valharon

Cross-platform fitness and performance app built with React Native (Expo): workout programming, calendar-based training logs, nutrition/hydration tracking and a professional-grade analytics layer for progress, correlation charts and performance KPIs.

Stack: Go, React Native (Expo), Postgres, Redis, AWS

App Store

Fonecue

A lightweight desktop AI assistant and engineering copilot designed as a screen-aware overlay beside your workspace. Features local speech dictation, visual screen OCR, codebase AST indexing, and seamless VS Code integration.

Stack: Go, Electron, JavaScript, Redis, RabbitMQ, Websocket, OpenAI

Fonecue

brw-res-formatter

Alightweight, type-safe response formatter for Express.js applications that standardizes API responses into a consistent JSON structure.

Stack: TypeScript, Express.js, Node.js, NPM

GitHub NPM

Love Yourself Factory

Aboutique e-commerceplatform for handcrafted keychains and jewelry, built for a freelance client with a focus on minimalist design and seamless UX.

Stack: Next.js, TypeScript, Tailwind CSS, Go, K8s, Redis

loveyourselffactory.ch

Iman Power

Acomprehensive Islamic helper mobile app featuring precise prayer times, an interactive AR Qibla finder, a customizable dhikr counter and daily contemplations.

Stack: Go, React Native (Expo), TypeScript, iOS

App Store

Miyufu

Production-ready team-todo platform with a built-in timer system, session-to-task attachment, a leaderboard, achievement badges, and customizable animated profiles.

Stack: Go (Gin), Redis, Postgres, K8s, Next.js, Tailwind CSS, Vercel
miyufu.com

Gebze Lojistik

Afast,responsivefrontend corporate website developed for a logistics company.

Stack: HTML5, Tailwind CSS, JavaScript, cPanel, SEO

REFERENCE LETTER

19.01.2026

This reference letter is to confirm that Mehmet Fatih Acan was employed at Powex as a Full Stack Developer from **05.01.2024 until 31.12.2025**.

During his time at Powex, Mehmet Fatih was a highly valued member of our engineering team. He worked extensively on both backend and frontend development, primarily using Golang and Next.js, and consistently delivered high-quality, well-structured, and maintainable solutions.

He is a fast learner who quickly adapts to new technologies and project requirements. Mehmet Fatih is also a proactive problem solver, often taking initiative to improve existing systems, optimize workflows, and suggest practical technical solutions. His strong sense of responsibility and attention to detail ensured that tasks were completed on time and to a high standard.

Beyond his technical skills, he proved to be an excellent team player, communicating clearly, collaborating effectively with colleagues, and contributing positively to team dynamics. His professional attitude and strong work ethic made him a reliable and trusted developer within the team.

We truly appreciated Mehmet Fatih's contributions to Powex. Unfortunately, due to the absence of ongoing and upcoming projects, we are no longer able to continue his employment. This decision is purely business-related, and we would have been very happy to retain him if circumstances had allowed. We believe he will be a great asset to any future organization and confidently recommend him, wishing him every success in his future career.

Sincerely,

Suad Tadzic
